

Lamb Farms Inc.
Lebanon, IN
2024 Summer Crop Internship

Duties;

1. Plan and schedule crop scouting needs with management team.
2. Perform these crop-scouting functions during growing season.
3. Work together to construct a list of goals relative to crops and method to measure the success of those goals.
4. Have input to make specific field-by-field recommendations of weed control decisions, nutrient needs and timing and any other crop health issues.
5. Help to coordinate and evaluate significant on-farm research plots (i.e. nitrogen rates, compost use, etc.)
6. Assist with crop supply needs when appropriate (i.e. restocking of nurse trucks).
7. Perform certain amount of general labor and/or fieldwork as necessary but not to be the majority of time spent.

Conditions of Employment;

1. Accept your role as a part of the team. Pick up on your responsibilities as assigned.
2. Be capable of independently scheduling daily work load.
3. Be willing to learn and expand your skills. We will provide opportunities.
4. Be willing to take care of machinery and tools and be reasonably neat in doing so.
5. Be willing to accomplish routine tasks—mowing, cleanup etc.
6. Be tolerant of other people; landlords, suppliers, other employees, etc.
7. Be willing to work at good public relations with the community and neighboring farmers.
8. Personal temperance.
9. Positive attitude.
10. No Sunday work.
11. Regular Hours: 7-5 Monday thru Friday, Work time can be flexible based on work load.

Pay;

1. \$18.00 per hour
2. Up to 3% matching contribution into a simple IRA account.
